

Crafting wooden legacy

Brochure

OVB WOOD

Dear reader,

Welcome to the world of OVB WOOD, where I turn wood into stories.

Wood has always fascinated me. Its texture, its warmth, and the way every grain tells a story of time.

Each creation begins with an idea, often inspired by the stories and wishes of those I craft for. Using modern CNC precision and guided by the spirit of traditional craftsmanship, I shape every piece with care and attention. My goal is simple: to create wooden art that speaks to you, that feels personal, and that will be cherished for generations.

I invite you to explore my creations and discover how OVB WOOD can transform your ideas into timeless wooden masterpieces.

Warm regards,

Olaf

OVB WOOD

Get to know me

Behind OVB WOOD is me, Olaf.

I have always been fascinated by nature and the life that surrounds us in plants, animals and landscapes. During my master Materials Science, I discovered my passion for design and turning creative ideas into real, tangible results. That drive to bring concepts to life naturally grew into a desire to have my own business, where I could fully shape my ideas into meaningful creations.

My love for nature naturally drew me to natural materials, and wood has always been my favourite. For me, wood is alive, warm, and unique. Every grain tells a story formed by time and nature itself. Giving that story a new life through my creations is what I enjoy most: capturing a small part of nature's beauty and turning it into something that can be experienced every day.
